The President's Advisory Panel on Federal Tax Reform
1440 New Your Avenue NW
Suite 2100
Washington, DC 20220

Headaches, unnecessary complexity, and burdens that taxpayers – both individuals and businesses – face because of the existing system:

First, I would like to define the “existing tax system”. The “existing tax system” is made up of Constitutional laws, Corporation rules, publications which contain interpretations, the Federal Reserve, the Internal Revenue Service, the Department of Justice, government employees that call themselves Tax Judges, banks, tax lawyers/attorneys, and tax prepares.

I am one of the millions of Americans who have taken the time to study the “existing system” and I am appalled to find the “existing system” is one of the most corrupt, anti-American, and unconstitutional systems in existence.

The tax laws as written in the Code of Federal Regulations (CFR) follow the Constitution. The laws are purposely written to be confusing, illogical, misleading, and baffling, and by careful reading one can find that the tax laws DO NOT apply to the average American wage earner.

The American people's problem starts when the Federal Reserve and their collection agency the Internal Revenue Service start writing the Internal Revenue Code and their other misleading publications. In the CFR all important words are defined, but by the time the IRS employees implement their rules the meaning of the words have changed and means whatever the IRS employee wants the word to mean.

Aspects of the tax system that are unfair:

The existing tax system is unfair because the enforcer's of the system do not follow the written law as provided by the Constitution and Congress. The enforcer's enter all kinds of incorrect

information in ours and your Individual Master File (IMF) which is maintained by the Internal Revenue Service. The IRS and the courts maintain that the incorrect information is correct until you rebut the information. Requesting copies of your IMF, decoding the data, then requesting copies of forms found by decoding the data, and finally rebutting the data, all take an enormous amount of time. But it is required to keep the IRS honest and to keep them from stealing your money and property. Here is an example from my IMF.

- I am an individual, but coded as a small business
- My social security number is not valid for the taxpayer using it
- I worked for the government 30 years ago, but I am coded as a federal employee
- I am coded as a resident of the Virgin Islands
- An illegal, according to IRS rules, Substitute for Return was generated for me.

I could go on for many pages, but this should give you an idea of why the tax system is unfair. The IRS and tax courts lie and until you rebut their lies they will steal your money.

The existing tax system is unfair because the controlled media tries to make Americans believe that the tax money collected by the IRS goes to run the federal government. The income tax money collected by the IRS goes to the IRS Department of Treasury which is the Federal Reserve, which is not federal. The Federal Reserve is a commercial bank run by anti-American foreigners. President Reagan commissioned the Grace Committee Report which found that not one nickel of the income tax money goes to run the federal government.

Where does the income tax money go? It goes to the IMF, AID and organizations of that kind. As stated so many times by IRS commissioners and other international bankers, income taxes are part of the redistribution of wealth scheme. Money from the poor and middle class supposedly

C. Gene Johnson

goes as aid to third world countries, but almost all of the money ends up in the pockets of the extremely wealthy.

Specific examples of how the tax code distorts important business or personal decisions:

For this example, it is not the lawful tax code that affected my personal decision, it is the criminal distortion of the tax code by the IRS that affected a personal financial decision. After saving for many months I had saved money for some much needed home repairs. The IRS, without following any of their own rules, sent a Form 668-A(c) Notice of Levy to my bank. In case you never looked at the back of a Form 668, you need to know that the scheming IRS left off paragraph (a) of Section 6331, Levy and Distraint. Why would the scheming and corrupt IRS leave off paragraph (a)? Well, the reason they left paragraph (a) off was because that paragraph tells the bank who the IRS can send a Notice of Levy to. Paragraph (a) says that a: *Levy may be made upon the salary of any employee of the United States by serving a notice of levy on the employer of such employee.* The bank is not my employer and I am not an employee of the United States. The Notice of Levy must include a Form 668 B which is the Levy and there must be a Court Order. (See Schulz v. IRS 04-0196-cv, January 25, 2005). There was no court order, nor was there a Levy. When I explained this to the bank they told me that they did not care what the law says, they will send my money to the IRS. So my home repairs are still waiting to be made. I had to close my account because there was not enough in my account to satisfy the IRS so they continue to try to get more money from the closed account.

Goals that the Panel should try to achieve as it evaluates the existing tax system and recommends options for reform.

1. The first and foremost goal of the Panel is to read and understand the Constitution of the United States of America before making any recommendations for reform.

C. Gene Johnson

2. Demand that the IRS follow the laws of the Constitution. Follow the laws as passed by Congress.
3. To reform the existing tax system you must demand that all IRS publications be destroyed, since they are all illegal and unconstitutional.
4. Since 95% of Americans are not required by law to pay income tax, there will be no need to change existing laws. Only IRS rules and illegal publications will need to be destroyed.
5. Recommend that a law be passed that all money legally collected by income tax laws be deposited in the United States of America Department of Treasury and not in the IRS treasury.

This letter for the record will clearly show that millions of Americans know full well about the fraud of the income tax system. We all dearly embrace the rights bestowed upon us by our Creator, and we are fully committed to peacefully end the IRS abuse and to restore Constitutional Order to the land.

Respectively Submitted
